

MacLyn

S58515

DESCRIPTION

This enchanting chandelier blends classic Bohemian elegance with modern organic design. Cascading, layered Radiance® Crystal octagon strands fall like raindrops from gracefully sweeping arms topped with mirrored leaves, capturing refined artistry in every detail. The chandelier's column is anchored by a vintage-inspired glass bobèche, supporting the curved arms and adding a subtle touch of Old-World charm. Rising from this foundation is a cascading tier of graduated octagon strands and mirrored leaves. A polished crystal ball finial completes this radiant piece, infusing any luxurious space with refined, organic beauty.
