Adley

S77502

DESCRIPTION

The Adley wall sconce captures a striking architectural presence with graceful, curvaceous lines decorated by shimmering crystal chains and accented by crystal teardrops that envelops its robust wrought iron frame. Cantilevered arms capped with square crystals sweep elegantly to support lustrous tapers set within pressed glass bobeches, descending in a refined curve that leaves space at the base for a dazzling faceted ball finial, offering a sophisticated finishing touch.
